CURES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it annot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness, instead it fritates and inflames the delicate fibres and tissues around the forest and glands and produces some of the many forms of akin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, not the sensitive membranous fiesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why cratching the outer skin affords no relief from the itching and burning. oratching the outer skin affords no relief from the itching and burning. i. S. S. cures Skin Diseases of every character by purifying the blood. It can down into the circulation and removes the humors or acids which are ausing the trouble, builds up the weak, acrid blood, and permanently cures very variety of skin affection. Local applications can only soothe; they ever cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause.
